

How to use “MyNASA”

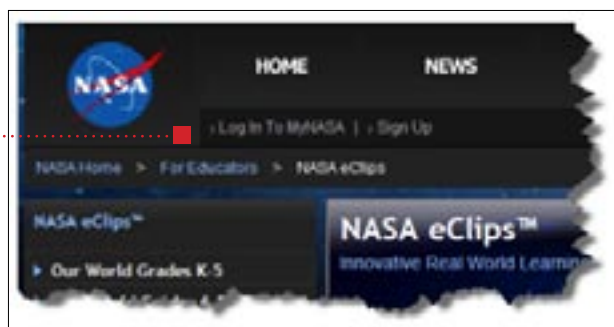

Create your own playlist:

Step 1:

Go to www.nasa.gov/education/NASAEclips

Step 2:

Click “Sign Up” located next to “Log into MyNASA”

Step 3:

Complete the sign-up information. When finished, click on “Go to MyNASA”.

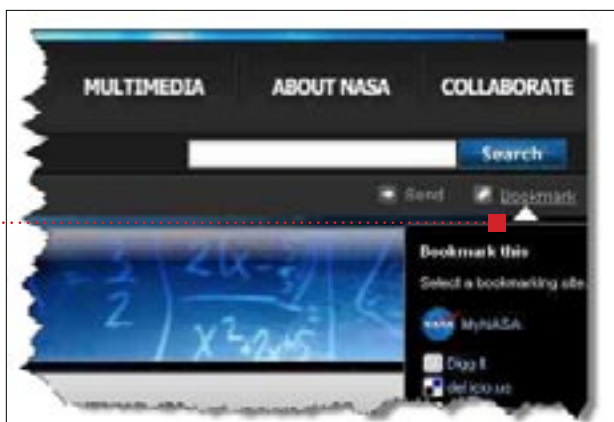

Step 4:

You'll next see your Profile page. This page lists your news feeds, bookmarked images, playlists, videos, and NASA pages.

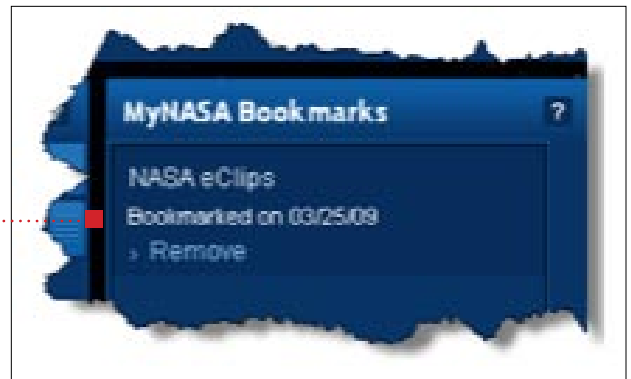

Step 5:

To bookmark a web site in the NASA portal, find the site you want to save, mouse over “Bookmark” then click “MyNASA”. Link to other sites outside of NASA using a variety of bookmark software by selecting from the list.

Step 6:

You can click on “MyNASA” to see if link was added to your bookmarks.

Step 7:

To bookmark an image in the NASA portal, find the picture you want to save, then click “Add to MyNASA Image Gallery”.

Step 8:

To bookmark a video in the NASA portal, find the video you want to save. Many will allow you to mouse over the thumbnail image then click “Add to my playlist”. Others may have an “Add to my playlist” link. (Unfortunately, some may not yet have either option!)

Step 9:

To delete content, select the item to be removed, click “Remove” or for images, “Remove from MyNASA Image Gallery”.
